## March Militaire

Franz Schubert  
*Arranged by David Marlatt*

***THE WORK:***

This incredibly famous melody will quickly become a favorite with beginning musicians. This would make an excellent first piece after working through a method book. The clarinets are below the break, the brass range is reasonable but this arrangement will sound great with these developing players.

The range and technical requirements are not too great and the tempo can be increased as confidence does. There are huge dynamic contrasts and the most should be made of these differences.
