Studies in Syncopation

Kevin Kaisershot

THE WORK: This piece was designed to teach various forms of syncopation in an ensemble setting. While much of what is presented is pretty straightforward and somewhat “common” in terms of syncopated figures, there is still an element of “tongue-in-cheek” to this work. That aspect is most pronounced with the four bar coda in 5/8 meter. It is something of a musical double take,....or, if you can visualize someone going..... wha - wha - what????

PERFORMANCE TIPS: Every part gets to share the “wealth” in this piece. This is made clear with the “lead” designation written into the music. The syncopations are at times presented only in the melodic line or the rhythmic line, but sometimes both. It is important the the syncopated figures do not allow the tempo to slow down, but rather to maintain a forward motion feel. While it is essentially an ensemble etude designed to teach, it is still meant to be fun, so have fun with it.

This work is part of a growing series of original pieces by this talented composer. Many of these titles are already found on contest lists throughout the country.

These like-instrument ensemble works are designed to be performed by junior high and high school level musicians. They are ideal for use in festivals and competitions as well as in concerts, church services, and other special events. All pieces are melodically and rhythmically creative with all parts being interesting and suitable in difficulty. (Easy-Medium, Medium)

Besides their use as like-instrument pieces, they are all interchangeable and will work with any combination of the brass or woodwind instruments (flute, clarinet, saxophone, horn, trumpet, trombone and tuba). This means that any non-standard combinations of instruments will have access to these terrific works.

Other titles in this series:

Elegy, Scherzo Diabolique, Novelette, Danse a la Gigue, Modern Day Madrigal, Rondeau Gracieuse, Moments Majestique and Musical Tag.
