Nautilus

David Marlatt

The *Nautilus* is a fictional submarine found in Jules Verne's novel *Twenty Thousand Leagues Under the Sea*. The sub, and its crew, sail to many places in the world's oceans from the Antarctic ice shelves to the Red Sea. They have many adventures and encounter mysterious creatures of the deep including a battle with a giant squid. This piece describes the various exploits of the ship and its time at sea.

There are several unison passages and many unison rhythms throughout this piece. Be sure to match articulation style and length of note so the players can sound like one.

At bar 13 there is a unison rhythm but at a quieter dynamic, so control is required. The melody introduced in bar 16 should be played very smoothly.

Everyone plays smoothly and sustained at bar 33. This contrasts the section following which is introduced by the low voices. Short, clearly defined pitches are required throughout this section. There are some biting dissonances in bar 46. Don't shy away from these - that will make them all more effective.

Bars 56-63 are still short and punctuated but at a *piano* dynamic. This must be quiet but intense.

After the three higher voices set up the background rhythm at 64, the low instruments get their chance at the smooth melody introduced in bar 16.

Bar 76 is another powerful unison where all voices must match in articulation and length of note. Layers are added, including a Middle Eastern inspired line, before driving to a decisive ending.
